

Manage Landfill Profile Materials

Materials Collected

In this section, identify the materials that are collected by your organization (or contracted service provider) from the public. If you choose to join the Community Profiles directory, the materials you select in this section will populate your online Community Profile. If you choose to join the EcoPoint directory, the materials you select will populate your EcoPoint listing.

1. To expand a material category, click on the category name.
2. Check the box beside the material name for each type of material that is collected from the public by your organization.
3. To select or de-select all materials, click on "Check All" or "Uncheck All".
